

To whom it may concern,

This is to recommend Rachel Nemcek for consideration for the position you are discussing with her.

I have worked with Rachel for several years on various projects for the Milwaukee Bucks.

We have collaborated on large scale partnership events, intimate sponsor group events, sponsor and partner dinners as part of road trips, The Bucks Learning Series and various other initiatives. The scope and reach of her projects has been quite remarkable.

In each case, Rachel covers every base with ease. She is able to bring project participants together both in understanding the goal of the event and in the productive execution of specifics. In every case, she builds rapport and enthusiasm with genuine thanks and gratitude for everyone's contributions. You always want to be involved in events that Rachel is spearheading.

From more of a distance, I have watched Rachel's ability to seamlessly and easily produce ideas and initiatives at the Founding Partner level. Her ability to quickly and easily assess partner needs and the best way to fulfill those needs has been impressive. We have had many discussions about ideas and how to implement them.

Rachel is a committed, creative and productive professional. She would be an asset to any franchise, business or corporation.
